• Hello my name is Osman Fatih. We celebrate my birthday on the night of December 31st in the new year and if it snows in the morning we play snowballs. I usually get up at 8 o'clock. I am listening to the lessons. After class, I rest a little and work. I also have dinner with my family in the evening. Then we watch TV. Then we sleep. My expectation from the new year is that this pandemic will pass and be happy. The pandemic affected my life a lot. I normally love to go out, but I had to stay at home during this pandemic. It positively affected my lessons, I had the opportunity to prepare better for the high school entrance exam. Technology has worked very well for education in the time of the pandemic and thanks to technology, we have been informed about the developments in the World. I wish you a good year and be happy in the new year.

Christmas Eve Preparation

The screenshot shows a Google Meet window. The main content is a presentation slide with a green background. The title 'Christmas Eve Preparation' is displayed in white text, accompanied by the Erasmus+ logo. Below the title are five small photographs showing children in a kitchen setting, engaged in preparing pastries. The Meet interface includes a grid of participant video feeds on the right, a top bar with the host name 'Kacper Kossakowski sunuyor', a participant count 'Bensu ve 46 kişi daha', and the time '15:36'. The Windows taskbar is visible at the bottom.

Nuriye Betül Doğan prowadzi prezentację

Hello, I'm Betül. I am a 9th grade student at Osman Ulubaş Kayseri Science High School. I want to tell you a little bit about what we went through in the epidemic. We had to be closed to our house since March. While I was preparing for the exam, I had a little hard time from home at first, but when I got used to it, I actually felt that everything was more comfortable at home. Then I passed the exam successfully and then I had a good time with my family, I had the opportunity to do my hobbies. For example, we played games together, decorated our house, I improved playing the piano, read many books, watched movies etc. Technology has helped us a lot in this process. We brought schools home by distance education. That's why we are grateful to the technology. I want to talk a little bit about my expectations for the new year. First of all, I wish the new year to be a healthy, happy and peaceful year. I hope the epidemic and other problems disappear in the new year and we can return to our schools. May the new year bring luck to all of us. HAPPY NEW YEAR.
