

The projects presented on this website have either received funding from various programmes of the European Union, including Erasmus+ and Horizon 2020, or have received funding from private funders. On behalf of the European Union, European Schoolnet operates the Central Support Service for eTwinning, the School Education Gateway and the Teacher Academy, and also maintains the Better Internet for Kids (BIK) core service platform under the Connecting Europe Facility (CEF). All project pages which follow include further information about funding.
